

Enable Calling in Microsoft Teams through your business phone system with IPT for Teams

IPT for Teams is a simple add-on to Office 365 that unifies Microsoft Teams with the IP Telecom Hosted phone system allowing making and receiving calls on any device using the Microsoft Teams App via your business phone system.

What is IPT for Teams?

IPT for Teams from IP Telecom is a fully cloud based service that combines the collaborative power of Microsoft Teams with the IP Telecom hosted PBX phone system. Now you can bring all users under one collaboration platform by using Microsoft Teams for collaboration, messaging and voice across all devices.

Why customers use IPT for Teams

- Enable Calling in Teams experience without needing any hardware or software
- Use your existing numbers and facilities combined with our cloud PBX. No disruption. Any call center or compliance features stay as they are
- A simple monthly subscription cloud service that can be delivered to selected users

Full Teams Experience

- Add calling to teams to increase productivity and unify remote teams
- Work on desktop and mobile to free your workforce
- The native Teams calling experience is familiar to users

Get the best of both worlds

Simple Deployment

- Embed your business phone system with all the features you rely on into MS Teams
- No hardware or software to install
- Only need to enable the solution for users and groups that need it

Can be deployed in hours across the globe

Enterprise Level Service

- Global infrastructure in Microsoft Azure
- Around the clock monitoring and support
- Enterprise grade encryption and security built-in

Low risk, non-disruptive, cost effective.

“S3 Group previously implemented Skype for Business across offices in Dublin and Cork. IP Telecom worked closely with us to integrate our existing S4B solution with their Hosted PBX platform to give us a seamless solution for voice and collaboration. Response times are excellent. Support is always technical at a senior level.

Mick O'Toole | Senior IT Systems Engineer | S3 Group

With IPT for Teams you can deliver a voice solution that combines Unified Communications and Teams Collaboration

IPT for teams brings Microsoft Teams to life

- Voice enabled collaboration is driving in excess of a 50% increase in collaborative work
- 80% of employee time is spent collaborating and 62% connect to meetings using mobile phones
- Business goals are more quickly achieved when people enjoy working together

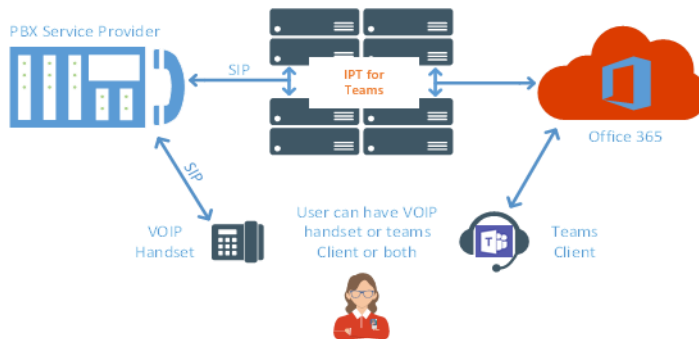

Preserve the current voice structures

- Businesses rely on call flow schedules and routing to deliver multiple services and functions to diverse user types
- Leveraging the current investment to power Office 365 saves on disruptive, costly new infrastructure and services
- Making Microsoft Teams integrate with current business processes can multiply the benefits of collaboration and integration

Simplified IT in the Cloud delivers flexibility

- Increase working flexibility and efficiency - 72% of workers were on track to be working remotely by 2021 (even before covid)
- Reduce the number of applications needed for users
- Lower support costs and higher productivity

Bring Calling to Teams

The quickest and easiest way to enable Calls in Microsoft Teams.

Why not give it a try?

- Redefine how your current voice platform is used
- IPT for Teams can be evaluated without disruption
- Evaluate the service free for 30 days for up to 25 users
- Discover the boost your team workers get from a new way of collaborating

Provide enhanced collaborative tools for your teams to deliver a true productivity boost for your projects

- Save money and enhance productivity by combining the benefits of a fully hosted phone solution with the latest Microsoft Teams features
- Streamline the number of tools your users need to use, reducing cost, administration and training.
- Take advantage of the latest enhanced communications to save costs and increase the level of service your users enjoy

Why IP Telecom?

We're passionate about Unified Communications. We work with our customers to reimagine the world of business communications and collaboration; we consistently drive progress, innovation and creativity at a rapid pace with the shared goal of helping business stay ahead of the curve when it comes to taking advantage of the latest technology, so business can be done more efficiently and effectively.
